IIA NEWS

Proposed Changes to the Standards

A little more than a month ago, The IIA released an exposure draft outlining proposed enhancements to the International Standards for the Professional Practice of Internal Auditing (*Standards*). Available in 14 languages, the exposure is an opportunity for internal auditors around the world to review and share input on whether the *Standards* sufficiently support the demands of the profession, its practitioners, and stakeholders.

Some of the proposed modifications are:

- The addition of two new Standards
- Alignment of the *Standards* to the Core Principles of the IPPF
- Updates to existing *Standards*

The [online survey](#) – closing on **30 April 2016** – guides respondents through each of the proposed changes to the *Standards* giving them an opportunity to provide feedback on whether they agree with the proposed enhancements and to provide additional comments as needed.
